TABLE 2a: 100 Largest Places Ranked by Number of Native Hawaiian and Pacific Islanders (race alone or in combination*) Living in Hard-to-Count (HTC) Census Tracts**

Rank	Place	State	Native Hawaiian and Pacific Islander population (alone or in combination with other races)	Native Hawaiian and Pacific Islander population (alone or in combination with other races) living in Hard to Count (HTC) tracts**	Percent of the Native Hawaiian and Pacific Islander population (alone or in combination with other races) living in HTC tracts**
	Total in Balance of Country		976,402	281,641	28.8

* Anyone who marked Native Hawaiian or Pacific Islander is included in this table even if they marked another race in addition to Native Hawaiian or Pacific Islander. Also anyone who marked Hispanic in addition to Native Hawaiian or Pacific Islander is included in this table.

** In this table, Hard-to-Count Census Tracts are those in the bottom 20 percent of 2010 Census Mail Return Rates (i.e. Mail Return Rates of 73 percent or less) or tracts for which a mail return rate is not applicable because they were enumerated in 2010 using the special Update/Enumerate method.

Some census tracts straddle city boundaries. If the majority of the population in such tracts is inside the city, the total population for the census tract is considered to be inside the city.

CDPs are Census Designated Places. These are places delineated to provide data for settled concentrations of population that are identifiable by name but are not legally incorporated under the laws of the state in which they are located.

Source: Population totals in this table are from the U.S. Census Bureau's 2011-2015 American Community Survey estimates.
