March 1, 2021

Dear Senator,

On behalf of The Leadership Conference on Civil and Human Rights and the 109 organizations listed below, we urge you to support the confirmation of Miguel Cardona to be the next U.S. Secretary of Education. All students and caregivers in this country want the best education, support and dignity for themselves and their own children. We join with them, and our coalition welcomes the opportunity to support a nominee who has a demonstrated record as an impactful educator and who has expressed a commitment to upholding the civil rights of all students in America and advancing equity at the U.S. Department of Education.

The Leadership Conference on Civil and Human Rights is a coalition charged by its diverse membership of more than 220 national organizations to promote and protect the rights of all persons in the United States. Equal access to education has long been a cornerstone of the civil rights movement. The Secretary of Education’s role as an enforcer of education and civil rights laws is central to advancing our shared vision of an inclusive and diverse system of high-quality public education that enables every student to live up to their potential.

Dr. Cardona’s experience as a classroom teacher, principal, assistant superintendent, and commissioner in Connecticut have provided him important experience for this role and illustrates his familiarity with the contours of the education system. Furthermore, Dr. Cardona’s lived experience as a low-income, English learner in Connecticut’s public school system equips him with a critical perspective on the experience of some of our most marginalized students. In his hearing before the Senate Health, Education, Labor and Pensions Committee on February 3, 2021, Dr. Cardona expressed his commitment to protecting the civil rights of all students. Dr. Cardona’s personal and professional experiences demonstrate that he is capable of and committed to enforcing the law in the service of students and equal opportunity — as is required of the Department of Education’s chief executive.

The COVID-19 public health crisis and a long overdue reckoning with white supremacy and systemic racism have laid bare the significant barriers facing students and families based on race, ethnicity, household income, first language, disability, sex (including sexual orientation, gender identity, and pregnancy/parenting status), immigration status, or other aspects of their background or identity. Long term closures of early childhood settings, K-12

schools, and college campuses, necessary to protect the safety and health of communities, have significantly exacerbated longstanding inequities in our educational system. Inequities in school resources and the criminalization of children that preceded the recent crisis require urgent action by a Secretary of Education committed to advancing equity in every action taken across the Department. Dr. Cardona has been a fierce advocate for some of the most marginalized students in Connecticut — including students of color, students with disabilities, low-income students, and English learners — and we expect he will continue do so as Secretary of Education.

The U.S. Department of Education is responsible for implementing and enforcing laws protecting students from discrimination on the basis of race, color, national origin, sex (including sexual orientation, gender identity, and expectant/parenting status) and disability and those laws that provide for educational opportunity from early childhood through graduate school. The person responsible for leading that department must be committed to enforcing federal laws on behalf of every single student in this country. Our nation’s Constitution, economy, future and children deserve no less. As such, we urge you to support the confirmation of Dr. Miguel Cardona to be the next U.S. Secretary of Education. If you have any questions, please contact Arielle Atherley, policy analyst, at atherley@civilrights.org.

Sincerely,
