* Anyone who marked American Indian/Alaska Native is included in this table even if they marked another race in addition to American Indian/Alaska Native. Also anyone who marked Hispanic in addition to American Indian/Alaska Native is included in this table.

** In this table, Hard-to-Count Census Tracts are those in the bottom 20 percent of 2010 Census Mail Return Rates (i.e. Mail Return Rates of 73 percent or less) or tracts for which a mail return rate is not applicable because they were enumerated in 2010 using the special Update/Enumerate method.

Some census tracts straddle city boundaries. If the majority of the population in such tracts is inside the city, the total population for the census tract is considered to be inside the city.

CDPs are Census Designated Places. These are places delineated to provide data for settled concentrations of population that are identifiable by name but are not legally incorporated under the laws of the state in which they are located.

Source: Population totals in this table are from the U.S. Census Bureau's 2011-2015 American Community Survey estimates.
